REVIEW OF GOLD STREAMS AND ROYALTIES

San Albino Gold Stream *

On July 10, 2014, the Company and Golden Reign entered into a \$15,000,000 (the “GRR Purchase Price”) Gold Streaming Arrangement (the “GRR Arrangement”) for the construction and development of Golden Reign’s San Albino gold deposit, located in Nueva Segovia, Nicaragua. The GRR Purchase Price is only due once a preliminary cost assessment report has been provided for the development of Golden Reign’s San Albino gold deposit.

Under the GRR Arrangement, Sailfish will be entitled to purchase 40% of gold production from the San Albino gold deposit, at \$700 per troy ounce, subject to a 1% per year cost escalation beginning three years from commercial production, as defined, until Sailfish recovers \$19.6 million. Thereafter, Sailfish will be entitled to purchase 20% of gold production at \$700 per troy ounce and is subject to a 1% per year cost escalation beginning three years from commercial production, plus 50% of the price differential above \$1,200 per troy ounce subject to certain adjustments.

Prior to commercial production Sailfish will be entitled to receive an 8% semi-annual coupon payment on the amount advanced on the GRR Purchase Price and Golden Reign will be required to make minimum repayments of \$282,800 per month when commercial production commences. The substance of this transaction results in it being treated as a loan for accounting purposes as the terms indicate a right to receive cash flows in the form of interest payments and minimum return of capital post commercial production dates. Once the Company's initial investment is recovered, it will receive additional benefit from future mine production and the ability to purchase gold at a discounted price.

Revised Stream Agreement

On August 6, 2018, Marlin and Sailfish enter into a mutually acceptable agreement to restructure the existing gold stream on San Albino (the "Amended and Restated Gold Purchase Agreement"). Accordingly, concurrent with the signing of the Arrangement Agreement, Golden Reign and its subsidiaries, Marlin and one of its material subsidiaries and Sailfish have entered into a master agreement (the "Master Agreement") whereby the parties have agreed:

- a. to the substantial form of and the terms and conditions of the Amended and Restated Gold Purchase Agreement, equivalent to a 3% net smelter returns royalty, to be entered into effective as of the closing of the Transaction, with respect to a certain area of interest on San Albino concession (the "AOI"), which includes as a schedule to the Amended and Restated Gold Purchase Agreement, the substantial form of and terms and conditions of a new royalty agreement to be entered into between Golden Reign and its subsidiaries, and Sailfish, with respect to a 2% net smelter returns royalty on production from the San Albino concession (exclusive of the AOI) and the El Jicaro concession;
- b. that Marlin will make cash payments to Sailfish in respect of any amounts recovered by Marlin in certain lawsuits Marlin has filed against the Mexican tax authority for the purpose of obtaining previously denied Mexican value added tax refunds for an aggregate of \$37,379,097 Mexican pesos (\$7,490,437 Mexican pesos of which have already been received), before certain interest and inflation adjustments and applicable legal fees;
- c. that Sailfish will extinguish Golden Reign's prepayment liability associated with the existing gold stream on San Albino prior to Closing;
- d. that Sailfish's existing funding obligation of approximately US\$13.9 million will be eliminated prior to Closing; and
- e. to the substantial form of and the terms and conditions of certain assignment, option and royalty agreements, that will be entered into as partial consideration to be paid to Sailfish in consideration for entering into the Amended and Restated Gold Purchase Agreement. Such agreements provide for Marlin's assignment to Sailfish, for no additional consideration, of the El Compas Royalty and La Cigarra Royalty in Mexico. Such agreements also provide for Marlin's agreement to transfer its Gavilanes property in Mexico, to a designee of Sailfish.

The advances made to Golden Reign to date as well as the future advances under the GRR Arrangement are secured by the mining concessions, property, plant and equipment and all other assets of Golden Reign.

As at September 30, 2018, the Company had advanced \$1,096,051 (2017 - \$1,096,051) to Golden Reign, accrued interest receivable of \$Nil (2017 - \$461), earned interest of \$43,917 (2017 - \$64,784), received interest of \$44,378 (2017 - \$75,560) and no repayments have been made.

As at September 30, 2018, the Company had accrued legal settlement fees receivable from Marlin of \$488,188 (2017 - \$Nil), earned legal settlement fees of \$525,618 (2017 - \$Nil), and received payments of \$37,500 (2017 - \$Nil).

Tocantinzinho NSR

Sailfish entered into a royalty purchase agreement dated June 27, 2017 with Alan Carter and Dennis Moore (together, the “Vendors”) pursuant to which the Company agreed to acquire and the Vendors agreed to sell, certain royalty interests in the Tocantinzinho Project (the “Transaction”).

The Transaction was subject to certain conditions, including approval of the TSXV, the completion of a going-public transaction by the Company (the “Spin-Out”), which was completed within the general parameters set out in the Royalty Purchase Agreement, and an equity financing in furtherance of the Spin-Out.

On November 15, 2017, the board of directors of Marlin, which at the time was the sole shareholder of the Company, announced that it had approved the Spin-Out pursuant to a court-approved arrangement under the Business Company Act (British Columbia). On the same date, Marlin called an annual and special meeting of the holders of common shares of Marlin held on December 14, 2017. At the Meeting, the Marlin shareholders passed a special resolution approving the Spin-Out. Under the Spin-Out, Marlin distributed all of the shares of the Company to its shareholders on the basis of one share of the Company for every five shares of Marlin.

Pursuant to the terms of the Transaction, the consideration paid by the Company to the Vendors was an aggregate of \$12,000,000 of which \$6,500,000 was paid in cash and the balance \$5,500,000 was paid-in-kind by receiving 4,059,923 Shares in the Company. The Company incurred additional transactional costs of \$107,000 which have been capitalized as part of the royalty interest.

The Tocantinzinho Royalty is a 3.5% royalty on revenues on the Tocantinzinho Project payable following the commencement of commercial production, which Eldorado Gold Corp (“Eldorado”) has the right to reduce to a 1.5% royalty on revenues by payment of US\$5.5 million within 30 days of a construction decision to proceed with development of the Tocantinzinho Project. In the event that Eldorado elects to make such a payment and such amount is paid to Sailfish, Sailfish will be obligated, pursuant to the Tocantinzinho Royalty Purchase Agreement to pay such amount to the Tocantinzinho Royalty Vendors. If Eldorado does not exercise its right to reduce the Tocantinzinho Royalty, then, within 35 days of the announcement by Eldorado of a construction decision to proceed with development of the Tocantinzinho Project, Sailfish shall, at its option, either (i) pay US\$5.5 million to the Tocantinzinho Royalty Vendors or (ii) assign 2% of the Tocantinzinho Royalty back to the Tocantinzinho Royalty Vendors. No liability has been recognized for this in the statement of financial position.

The Company had total assets of \$13,764,795 as at September 30, 2018 compared to \$13,740,886 as at December 31, 2017, a change of \$23,909, as explained in the following paragraphs.

Cash at September 30, 2018 was \$66,543 (2017 - \$535,174), which was the result of the loss incurred during the period as well as the increase in legal settlement fees receivables of \$488,188, paying down accounts payable by \$23,431 and due to related parties by \$23,898.

The Company had total liabilities of \$174,443 as at September 30, 2018 compared to \$221,772 as at December 31, 2017, a change of (\$47,329), which was the result of due to related parties decreasing by \$23,898 and accounts payable by \$23,431.

The Company recorded a net loss of \$223,153 for the nine month period ended September 30, 2018 (-\$0.01 per common share) as explained in the paragraphs above.

LIQUIDITY, CAPITAL RESOURCES AND GOING CONCERN

The Company's ability to settle its existing liabilities and continue as a going concern is dependent upon the Company securing financing and continued support from Marlin. Marlin has funded the Company's needs to date and has advanced an additional \$500,000 for working capital purposes. In conjunction with the closing of the Transaction, Marlin converted its loans to additional equity and agreed to make available a credit facility of approximately \$14,000,000 to fund the remaining amount of the GRR Purchase Price.

A summary and discussion of the Company's cash inflows and outflows for the nine month period ended September 30, 2018 and September 30, 2017 is as follows:

- (v) On December 20, 2017, the Company issued a further 5,167,175 shares to Marlin Gold Mining Ltd. for an aggregate subscription price of \$7,000,000 and in turn Marlin distributed these shares to its shareholders on a pro-rata basis.
- (vi) Rent of \$15,400 (2017 - \$13,500) was paid during the 9 month period to a company related to one of the directors for office space for which there is no long-term commitment.

FINANCIAL INSTRUMENTS

(a) Overview

The Company has exposure to credit risk, liquidity risk and market risk from its use of financial instruments. This note presents information about the Company's exposure to each of these risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

(b) Fair Value of Financial Instruments

Financial instruments must be classified at one of three levels within a fair value hierarchy according to the relative reliability of the inputs used to estimate their values. The three levels of the hierarchy are as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3: Inputs that are not based on observable market data.

The carrying values, fair market values, and fair value hierarchical classification of the Company's financial instruments are as follows:

The fair value of all financial instruments approximates their carrying value due to either their short-term maturity and/or capacity of prompt liquidation. However, due to liquidity risk the fair value of accounts payable and accrued liabilities is less than carrying value.

The Company does not have any financial instruments that are measured using level 1, 2 or level 3 inputs.

During the 9 month period ended September 30, 2018 and 2017 there were no transfers between level 1, level 2 and level 3 classified assets and liabilities.

(c) Credit Risk

Credit risk is the risk of potential loss to the Company if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily

attributable to cash held by Barbadian financial entities and the Advances under the GRR Agreement. The carrying amount of financial assets recorded in the financial statements represents the Company's maximum exposure to credit risk.

The Company limits its exposure to credit risk on liquid financial assets through investing its cash and cash equivalents with high-credit quality financial institutions and advances under asset secured royalty agreements.

(d) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities and through the management of its capital structure. Accounts payable and accrued liabilities of \$174,443 are due in the fourth quarter of fiscal 2018. The Company is dependent upon securing additional financing or continued support from Marlin (see note 1).

(e) Market Risk

(i) Foreign Currency Risk

Foreign exchange risk is the risk arising from changes in foreign currency fluctuations. The Company operates in one country. As a result, the Company is not significantly exposed to fluctuation in exchange rates and foreign currency risk.

At September 30, 2018 and December 31, 2017, the Company's exposure to foreign currency risk is as follows:

	<u>September 30, 2018</u>	<u>December 31, 2017</u>
	<u>CAD</u>	<u>CAD</u>
Accounts payable and accrued liabilities	178,466	79,250
Due to related parties	-	30,000

The following year end exchange rates have been applied converting Canadian dollars to United States dollars at September 30, 2018 and December 31, 2017:

	<u>2018</u>	<u>2017</u>
USD	0.77417	0.79659

Had the Canadian Dollar foreign exchange rates strengthened against the United States dollar by 1%, with all other variables remaining constant, the change in net income would have been insignificant. A weakening of 1% in the Canadian Dollar against the United States dollar, with all other variables held constant, would have had an equal but opposite effect.

Interest Rate Risk

The interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure

to interest rate risk on the Advances and Due to related parties is limited as the interest rates are fixed.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company's significant accounting policies are described in Notes 2 and 4 of the interim financial statements for the nine month period ended September 30, 2018.

CHANGE IN ACCOUNTING STANDARDS INCLUDING INITIAL ADOPTION

Adoption of new accounting policies

There were no new accounting policies adopted by the Company in the Current Period.

Changes in accounting standards

The IASB issued the following new or revised pronouncements that will affect the Company's current year financial statements.

- IAS 7: Statement of Cash flows: From 1 January 2017, entities will be required to explain changes in their liabilities for which cash flows have been, or will be classified as financing activities in the statement of cash flows. Further details can be found in note of the financial statements.

The IASB issued the following new or revised pronouncements that may affect the Company's future financial statements.

- IFRS 9: Financial Instruments ("IFRS 9"): This standard replaces the current IAS 39: Financial Instruments Recognition and Measurement. The standard introduces new requirements for classifying and measuring financial assets and liabilities. The effective implementation date of IFRS 9 is January 1, 2018. The Company has evaluated the impact on the financial statements and determined there was no material affect.
- IFRS 15: Revenue from Contracts with Customers ("IFRS 15"): This standard replaces IAS 11: Construction Contracts, IAS 18: Revenue and IFRIC 13: Customer Loyalty Programmes. This standard outlines a single comprehensive model for entities to account for revenue arising from contracts with customers. The latest date of mandatory implementation of IFRS 15 is January 1, 2018. The Company has evaluated that there will be no impact on the financial statements as the Company currently doesn't generate any revenue income.
- IFRS 16: Leases ("IFRS 16"): This standard replaces IAS 17 – Leases and its associated interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to current finance lease accounting, with limited exceptions for short-term leases or leases of low value assets. Lessor accounting remains similar to current accounting practice. The standard is effective for annual periods beginning on or after January 1, 2019, with early application permitted

for entities that apply IFRS 15. The Company has yet to determine the impact on the financial statements.

OUTSTANDING SHARE DATA

As at the date of this MD&A, the Company had the following common shares issued and outstanding:

- 38,373,566 issued shares

On December 22, 2017, the Company was spun-out of Marlin Gold Mining Ltd. As part of the plan of arrangement, stock options are to be issued to a director and an officer of the Company entitling them to purchase 1,200,000 common shares over a period of five years, expiring on February 5, 2021. The options have been designed to have an initial value equal, when combined with the remaining options in Marlin Gold Mining Ltd., to that held by the option holders held in Marlin Gold Mining Ltd. at the date of the spin out of the Company.

On April 24, 2018, the Company priced 900,000 common shares options issued to the Chief Executive Officer and 300,000 common shares options issued to a director of the Company at a price of \$0.75 per share in accordance with the calculation described above. The value of these options was calculated at \$1,873,062 using the Black Scholes model. All of the options vest on February 5, 2021 and the Company recorded share-based compensation of \$169,275 during the current quarter and \$125,116 during the previous quarter.

The following assumptions and inputs were used to fair value the options on the grant date: expected life- 2.79 years; weighted average expected volatility – 173.01%; expected dividend yield – 0.0%; risk free interest rate – 2.03%; share price- \$1.72.

For 2017, the share-based compensation in the statement of loss and comprehensive loss is to reflect the Company's share of the original options in Marlin Gold Mining Ltd.

CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

This MD&A contains forward-looking statements or forward-looking information within the meaning of applicable securities laws concerning the Company's beliefs and plans, including but not limited to statements with respect to the availability of financial resources; capital, operating and cash flow estimates; and other matters. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management.

Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, intentions or future events or performance are not statements of historical fact and may be "forward-looking statements".

Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors which could cause actual events or results to differ from those expressed or implied by the forward-looking statements, including but not limited to those referred to in this MD&A under the heading "Risks and Uncertainties" and elsewhere in this MD&A.

The Company's forward-looking statements are based on the beliefs, expectations and opinions of management on the date the statements are made and should not be relied on as representing the Company's views on any subsequent date. The Company specifically disclaims any intention or any obligation to update forward-looking statements if circumstances or management's beliefs, expectations or opinions should

change, except as required by applicable law. For the reasons set forth above, investors should not place undue reliance on forward-looking statements.

EVENTS ANNOUNCED DURING/AFTER THE REPORTING PERIOD
